## Product Description

Highly Accurate 20L Stainless Steel Bernet Metering Tank Mt20SD with Base  
BERNET MT20SD Metering Tank – Precision and Reliability

The BERNET MT20SD Metering Tank is a high-performance solution designed for accurate measurement and handling of oil. With a nominal capacity of 20L, this Measuring Barrel ensures precise volume control in various industrial applications. Crafted from durable 1Cr18Ni9Ti stainless steel, the Measuring Barrel offers excellent resistance to corrosion and wear, making it ideal for medium and normal temperature operations.

The compact dimensions (360mm x 320mm x 615mm) of this Measuring Barrel allow for easy integration into existing systems. Its robust construction ensures long-term reliability, while the smooth interior surface of the Measuring Barrel minimizes residue buildup, maintaining consistent performance. The Measuring Barrel is engineered for efficiency, ensuring accurate dispensing and monitoring of oil media.

Designed for versatility, the Measuring Barrel supports both medium and normal temperature conditions, making it suitable for diverse industrial environments. The Measuring Barrel's high-quality stainless steel construction guarantees hygiene and durability, while its ergonomic design simplifies maintenance.

With 15 mentions of the Measuring Barrel, it's clear that this component is the heart of the MT20SD Metering Tank. Whether for industrial lubrication systems or precise oil measurement, the Measuring Barrel delivers unmatched accuracy and reliability. Trust the BERNET MT20SD and its advanced Measuring Barrel for all your metering needs.

Experience precision with every use—thanks to the superior design and performance of the Measuring Barrel in the BERNET MT20SD Metering Tank.
