## Product Description

Bernet band Fuel pump dispenser accessories part oil fuel filter with bracket

High-Quality Filter Bracket for Fuel Distribution – Model GL04

The Filter Bracket in the GL04 model is a critical component designed for efficient fuel distribution. Manufactured by Bernet, this Filter Bracket ensures reliable performance with a flow rate of 0~90L/min, suitable for both Medium and Normal Temperature media. The Filter Bracket features durable BSPF/NPT1" inlet & outlet connections and a UNF 1" filter thread, ensuring secure and leak-proof operation.

Certified by ISO9001, the Filter Bracket guarantees top-tier quality and compliance with international standards. Its robust construction makes the Filter Bracket ideal for demanding filtration applications, providing long-lasting durability. The Filter Bracket is engineered to support seamless fuel distribution, enhancing system efficiency.

With its precision design, the Filter Bracket offers easy installation and maintenance, reducing downtime. The Filter Bracket is a versatile solution for various industrial and automotive applications. Trust the Filter Bracket in the GL04 model to deliver consistent performance and superior filtration.

The Filter Bracket ensures optimal fuel flow, while its high-quality materials resist wear and corrosion. Whether for heavy-duty or standard use, the Filter Bracket is the perfect choice. Upgrade your system with the Filter Bracket today and experience unmatched reliability!

In summary, the Filter Bracket in GL04 is a must-have for efficient, high-performance fuel distribution. Choose the Filter Bracket for durability, precision, and certified quality!
