Product Description

High-Performance Bernet Bnk-40 Plastic Pneumatic Diaphragm Pump for Versatile Applications

Pneumatic Diaphragm Pump – Bernet: Reliable Performance for Demanding Applications

The Pneumatic Diaphragm Pump from Bernet is engineered for efficiency and durability. With a maximum particle diameter of 4mm, this Pneumatic Diaphragm Pump handles abrasive fluids effortlessly. Its compressed air inlet of 10 inches ensures smooth operation, while the maximum head of 60 meters delivers powerful performance.

Designed for versatility, this Pneumatic Diaphragm Pump features a self-priming head of 0-10 MWC, making it ideal for varied applications. The suction and discharge outlet of 1 inch allows easy integration into existing systems. With a maximum flow of 0-8 units, the Pneumatic Diaphragm Pump ensures consistent output.

The maximum air supply pressure of 7 bar enhances the Pneumatic Diaphragm Pump's reliability under high-demand conditions. Whether transferring viscous or corrosive liquids, this Pneumatic Diaphragm Pump excels. Its robust construction ensures long service life, reducing downtime.

Bernet's Pneumatic Diaphragm Pump is perfect for industries requiring a dependable pumping solution. The Pneumatic Diaphragm Pump's self-priming capability and high-pressure resistance make it a top choice. Trust the Pneumatic Diaphragm Pump for unmatched performance in challenging environments.

For efficiency, durability, and power, the Pneumatic Diaphragm Pump by Bernet stands out. Invest in the Pneumatic Diaphragm Pump today for seamless fluid transfer
