

## 20mm Nozzle Size Fuel Nozzle Cover for -35C to 50C Temperature Environments

Our Product Introduction

more products please visit us on [fueldispensermachine.com](http://fueldispensermachine.com)

### Basic Information

- Place of Origin: Anhui China
- Brand Name: Bernet
- Certification: ISO9001.ATEX,UL,MID
- Model Number: MT20SD
- Minimum Order Quantity: 5PCS
- Price: \$82.00/pieces 10-100 pieces
- Packaging Details: 1PCS PER CARTON
- Delivery Time: 10-15days
- Payment Terms: L/C,T/T,D/P,Western Union
- Supply Ability: 1000 Piece/Pieces per Month

### Product Specification

- Color: Black, White, Yellow, Red, Blue
- Company: Anhui Bernet Intelligent Technology Co, Ltd
- Surface: Smooth Surface For Easy Cleaning And Maintenance
- Material: PVC
- Rated Pressure: 0.35Mpa
- Protection: Reliable Protection Against Wear, Corrosion, And Environmental Damage
- Resistance: Excellent Resistance To Fuels, Oils, And UV Exposure
- Working Temperature: -35°C To +50°C
- Highlight: -35C Fuel Nozzle Cover , 50C Fuel Nozzle Cover , 20mm Fuel Nozzle Cover

## Product Description

### Product Description:

The Other Parts Of Fuel Dispenser product offers a range of essential components for oil dispensing machine spare parts, designed to enhance efficiency and prolong the lifespan of gas dispenser nozzles. With a smooth surface, these parts are easy to clean and maintain, ensuring optimal performance at all times.

Constructed from lightweight yet durable PVC material, these fuel dispenser components are built to withstand the rigors of daily use, making them a cost-effective choice for businesses looking to extend the longevity of their equipment. The innovative design of these parts ensures reliability and durability, even in demanding environments.

With a working temperature range of -35°C to +50°C, these parts are suitable for a variety of operating conditions, providing versatility and flexibility for different applications. Whether used in cold storage facilities or outdoor fuel stations, these components deliver consistent performance and reliability.

The rated pressure of 0.35Mpa ensures that these parts can handle the demands of high-pressure fuel dispensing systems, offering peace of mind to users and operators. With a focus on quality and performance, these components are designed to meet industry standards and exceed expectations.

Overall, the Other Parts Of Fuel Dispenser product is an ideal choice for cost-conscious businesses seeking reliable and durable components to enhance their fuel dispensing systems. With a focus on quality, performance, and longevity, these parts offer a practical solution for extending the lifespan of gas dispenser nozzles and optimizing operational efficiency.

### Features:

Product Name: Other Parts Of Fuel Dispenser

Affordability: Affordable price with exceptional value

Installation: Simple to install and replace

Application: Ideal for cost-conscious businesses seeking to extend nozzle lifespan

Material: PVC

Nozzle Size: 20mm, 25mm

### Technical Parameters:

Working Temperature	-35°C to +50°C
Design	Rugged design for long-lasting performance in high-traffic fueling stations
Nozzle Size	20mm, 25mm
Affordability	Affordable price with exceptional value
Rated Pressure	0.35Mpa
Focus	High-tech enterprise focusing on R&D, production, sales, and service of petroleum machine
Color	Black, white, yellow, red, blue
Global Reach	Products sold in bulk to over 150 countries and regions worldwide
Resistance	Excellent resistance to fuels, oils, and UV exposure
Surface	Smooth surface for easy cleaning and maintenance

### Support and Services:

The Product Technical Support and Services for the Other Parts Of Fuel Dispenser include:

- Troubleshooting assistance for any issues related to the functionality or performance of the parts
- Repair and maintenance services to ensure the parts are working efficiently
- Technical guidance on installation and proper usage of the parts
- Availability of spare parts for replacement when needed

### Packing and Shipping:

Product Packaging:

Each part of the Fuel Dispenser is carefully packaged in a sturdy cardboard box to ensure protection during transportation. Foam inserts are used to secure the parts in place and prevent any damage.

Shipping:

We offer reliable shipping services to deliver the Fuel Dispenser parts to your desired location. Our shipping partners ensure safe and

timely delivery, with tracking information provided for your convenience.

**FAQ:**

**Q: What is the brand name of the fuel dispenser part?** .....

A: The brand name of the fuel dispenser part is Bernet.

**Q: What is the model number of the fuel dispenser part?**

A: The model number of the fuel dispenser part is MT20SD.

**Q: Where is the fuel dispenser part manufactured?**

A: The fuel dispenser part is manufactured in Anhui, China.

**Q: What are the accepted payment terms for purchasing this fuel dispenser part?**

A: The accepted payment terms for purchasing this fuel dispenser part are L/C, T/T, D/P, and Western Union.

**Q: What is the minimum order quantity and price of the fuel dispenser part?**

A: The minimum order quantity for the fuel dispenser part is 5 pieces, and the price is \$82.00 per piece for orders of 10-100 pieces.
